Amendment No. 5

On page 1, between lines 6 and 7, insert.

"6060. The Legislature hereby finds, recognizes, and declares that an extraordinary situation exists with reference to language handicaps of many pupils in attendance at public elementary schools in the counties of Imperial and San Diego. In some of the public elementary schools in those counties, inordinately high percentages of the pupils, particularly at the lower grade levels, are unable to speak the English language, wholly aside from considerations of their inability to read and write the same. Superimposed upon the responsibility of conduct of the regular elementary program in those schools, consequently, is the necessity of providing preliminary and concurrent work in mastering the rudiments of the English language for large numbers of pupils. Providing the specially trained personnel, and the supplies and equipment necessary for those purposes is found to entail an added financial burden upon the districts maintaining those schools which cannot, without undue hardship, be met through the established state and local system for support of the public schools.

The Legislature intends, by the provisions of this article, to establish a two-year pilot program under the general direction of the State Board of Education, and insofar as the State's direct financial participation is concerned, under the administration of the Superintendent of Public Instruction, which shall serve not only to afford some financial relief to the school districts in Imperial and San Diego Counties which are most severely affected by the problem in question, but which will serve to provide guidelines for the development of effective programs to meet such problems in the future."

Amendment No. 6

On page 1, line 8, strike out "may", and insert "in Imperial County or San Diego County may, pursuant to this article and the implementing rules and regulations of the State Board of Education and the Superintendent of Public Instruction,".

Amendment No. 7

On page 1, line 9, after "classes", insert "for which State financial assistance under this article may be provided,".

Amendment No. 8

On page 1, strike out lines 16 to 18, inclusive; and on page 2, strike out lines 1 to 3 inclusive.

Amendment No. 9

On page 2, line 4, strike out "6063", and insert "6062".

Amendment No. 10

On page 2, line 7, strike out "from the State School Fund", and insert "under this article".

Amendment No. 11

On page 2, between lines 8 and 9, insert

"The standards prescribed by the State Board of Education shall extend to matters including identification of participating pupils, standards to govern the allowance and apportionment to districts with eligible programs of moneys appropriated by the Legislature for purposes of this article, the adequacy and effectiveness of programs in terms of competency of personnel and the availability of necessary equipment and facilities, and any other factors it may deem best suited to carrying out the intent and purpose of the Legislature in enacting this chapter.

6063. The Superintendent of Public Instruction shall compute the excess expense to school districts of maintaining programs under this article, and shall allow to such districts in each fiscal year from moneys appropriated therefor, the amount of such excess expense but not to exceed fifty dollars ($50) per full-school year participating pupil. Such allowances shall be made on a current basis commencing in the 1963-1964 fiscal year, and the amounts computed as allowable shall be apportioned to the school districts together with any of the apportionments from the State School Fund made pursuant to Article 3 (commencing with Section 17401) of Chapter 2 of Division 14, as the Superintendent of Public Instruction shall determine.

The Superintendent of Public Instruction may prescribe and require the submission of such reports as he may require for these purposes, and shall otherwise administer this article.

6064. The Department of Education shall, on or before the first legislative day in February, during the 1965 Regular Session, report to the Legislature on the operation and effect of the programs established pursuant to this article, including in the report its recommendations in connection therewith.

6065. The number of pupils in respect to whom allowances shall be provided in any school year under this article shall not exceed five hundred (500).

6066. This article shall remain operative until June 30, 1965, after which it shall be of no force or effect.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury to the Department of Education, for the 1963-1964 fiscal year, the sum of twenty-five thousand dollars ($25,000) for purposes of carrying out the provisions of Article 6.5 (commencing with Section 6060) of Chapter 6 of Division 6 of the Education Code."

Amendment No. 12

On page 2, strike out lines 9 to 51, inclusive; and strike out all of page 3.

RESOLUTIONS

The following resolutions were offered:

By Senator Cameron:

Senate Resolution No. 198

Relating to a study of recreational boating laws

Resolved by the Senate of the State of California, That the Senate Rules Committee is directed to assign to the appropriate interim committee for study the problem of conflicting laws and regulations applicable to recreational boating, including a study of alleviating conflict between local regulations and state law by requiring approval of local regulations by the Division of Small Craft Harbors or the Small Craft Harbors Commission; with such interim committee to report to the Senate no later than the fifth day of the 1965 Regular Session.

Resolution read, and referred to Committee on Rules.

By Senator Dolwig:

Senate Resolution No. 199

Relating to study of the trimester or four-quarter system for public elementary and secondary schools

WHEREAS, The Citizen's Advisory Commission reported to the 1960-61 Joint Interim Committee on the Public Education System as follows:

"The (Citizen's Advisory) commission believes that it would be sound fiscal policy to make greater use of school facilities than under the present nine-month school year.

"The commission also believes that present educational challenges require an increase in the amount of time available for instruction.

"For instance, increased use of schools for summer sessions indicates a trend in this direction.

"No school system in California has ever adopted a year-round school plan. However, many systems in other states have such experience, and several pertinent studies have been made.

"The commission believes that a statewide study in California, provided it had competent staff, with imagination and with the belief that every economy must be practiced and every educational opportunity increased, might devise a generally acceptable year-round school plan.

"The Legislature is in the key position to sponsor such a study and to present its findings to the people. Therefore:

"The commission recommends that: The Legislature direct a study to be made of the possibilities of a year-round school year, or an approximation of such a plan, to determine costs and benefits;" and

WHEREAS, Our traditional three-month summer vacation is a heritage from the early American frontier agrarian economy, and has little logical basis in the face of the serious shortages of trained teachers and school facilities, and there is a real need to extend instruction time beyond the normal September to June school calendar year; and

WHEREAS, It has been shown in several preliminary studies that a 48-week, four-quarter system for extending the school year would allow above average or gifted children to accelerate, completing their 12 years in nine, while less gifted ones could complete elementary and secondary schooling in the normal 12 years; and

WHEREAS, Each child under such a trimester plan would be assured of as much schooling as normally is given, yet it would be possible for approximately 25 percent more pupils to be taught by the same staff using the same facilities, thus helping to eliminate burdensome double session; and

WHEREAS, The Regents of the University of California has adopted the trimester plan for its campus throughout the State for the 1963-64 school year, and the Trustees of the California State Colleges are considering adopting such a plan for the 1963-64 school year, and it would be desirable to have such a plan extended to the public elementary and secondary schools for the sake of uniformity; and

WHEREAS, There is a growing tendency throughout the elementary and secondary schools in California to have summer enrichment and remedial programs, which in effect results in a four-quarter system; and

WHEREAS, Trimester systems—based on 12-month operation—are in use at the University of Pittsburg, Pennsylvania State, Dartmouth, Harper College of the State University of New York, and many other schools in the United States; and

WHEREAS, Due to technological and social development the child of today has fewer opportunities to learn and practice the necessary work habits, responsibilities, and skills during the summer month period he is at home, and juvenile delinquency and vandalism statistics reported by police agencies throughout the State show a sharp increase during the vacation period; and

WHEREAS, There is no necessity that a trimester system result in teachers being forced to teach 12 months for the same pay they now receive for 10 months, or that they would necessarily be unable to advance themselves educationally through enrollment in graduate courses, since these are problems which can be worked out administratively on the district level through such devices as rotated vacation periods, rotated entrance periods, rotated promotion times, and block scheduling; now, therefore, be it

Resolved by the Senate of the State of California, That the Rules Committee assign to an appropriate interim committee for investigation and study, in co-operation with the State Board of Education and the State Department of Education, the feasibility of requiring California elementary and secondary schools to adopt a trimester, or four-quarter school calendar system, and report its recommendations to the Senate not later than the 13th calendar day of the 1965 Regular Session of the Legislature.

Resolution read, and referred to Committee on Rules.

By Senator Farr:

Senate Resolution No. 200

Relative to an interim study of "in lieu" state park tax payments

WHEREAS, At each general session of the Legislature, legislation is introduced to effect an "in lieu" of tax payment by the State to counties for state park property taken off of county tax rolls through acquisition thereof by the State; and

WHEREAS, The comparative financial benefit or loss to such counties from the location therein of state park units is not known; and

WHEREAS, It is difficult to appraise the equity of "in lieu" of tax proposals without first making an analysis of the current and potential economic benefit to those counties from the use by the public of the state parks; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate Committee on Rules assign the subject of this resolution to the appropriate factfinding committee and request said committee to submit its report thereon, together with its recommendations, to the Legislature at its 1965 Regular Session.

Resolution read, and referred to Committee on Rules.

"25505. [The governing board of any district maintaining a junior college may admit nonresident students. The attendance of nonresident students shall be computed in the same manner as prescribed by this code for resident students.

The governing board of any district maintaining a junior college may contract with the appropriate agency of another state or with a local agency of another state for the payment of the cost to the district of educating nonresident students attending in the district. The cost shall be computed in the manner prescribed by Section 20201 of this code for the payment of tuition on account of the attendance of students who reside in territory of a California county that is not part of a district maintaining a junior college.

As used in this section, "nonresident student" shall have the same meaning as is given the phrase by provisions of this code prescribing fees for attendance at state colleges, except that a person whose parent or guardian is living in the State at the time of the person's registration at the junior college shall not be deemed a nonresident student. When such provisions refer to the trustees the reference shall for the purpose of this section be deemed to be to the governing board of the district and, except in subdivisions (a) and (b) of Section 23759, when such provisions refer to a state college the reference shall be deemed to be the junior college.]

The governing board of any district maintaining a junior college may admit nonresident students. The attendance of nonresident students shall be computed in the same manner as prescribed by this code for resident students.

As used in this section "nonresident student" shall have the same meaning as is given the phrase by provisions of this code prescribing fees for attendance at state colleges, except that a person who has lived in the State less than one year and whose parent or guardian is living in the State at the time of the person's registration at the junior college may at the option of the governing board be deemed to be a resident student. When such provisions refer to the trustees the reference shall for the purpose of this section be deemed to be to the governing board of the district and, except in subdivisions (a) and (b) of Section 23759, when such provisions refer to a state college the reference shall be deemed to be to the junior college.

SEC. 2. Section 25505.5 of said code is amended to read:

25505.5. [The governing board of any district maintaining a junior college may, if provisions for the payment of the cost of educating a nonresident student are not made pursuant to Section 25505, fix a nonresident fee to be paid by the student. The fee shall be uniform and shall be required of each such nonresident student. The fee shall not be less than the fee required of nonresident students of state colleges enrolled in a course of instruction prescribed for the first two years of a four-year curriculum nor more than an amount computed in the manner prescribed by Section 20201, excluding subdivision (c) thereof, of this code for the payment of tuition on account of the attendance of students who reside in territory of a California county that is not a part of a district maintaining junior college.]

The governing board of any district maintaining a junior college shall charge a nonresident fee to those students attending the junior college, who qualify as nonresident students under the provisions of Section 25505, except that in lieu of charging the students, the governing board may contract with another state or with an appropriate agency of another state, for the payment of the fee of the students in attendance from such state. Students attending the junior college, who are citizens of a foreign country, military personnel or the dependents of military personnel may be subject to the payment of a nonresident fee as determined by the governing board of the district in an amount not to exceed the total nonresident fee set by the State Board of Education. The determination that students attending junior college who are military personnel or the dependents of military personnel may be subject to the payment of a nonresident fee shall be made with respect to all such students, and shall not be made on an individual basis and the fee, if any, shall be the same amount for all such students; the determination that students attending junior college who are citizens of a foreign country may be subject to the payment of a nonresident fee shall be made with respect to all such students, and shall not be made on an individual basis and the fee, if any, shall be the same amount for all such students; except that a different uniform fee may be charged

such students who are residents of a foreign country or who are military personnel or the dependents of military personnel and who are attending on less than a full-time basis as fixed by the State Board of Education in accordance with the provisions of this section set forth below. The governing board of the district maintaining a junior college may exempt students who enroll for six units or less from the payment of a nonresident fee.

The fee which shall be uniform throughout the State except for foreign students, military personnel, or the dependents of military personnel and which shall be paid in two equal installments at the beginning of each semester, shall be set by the State Board of Education not later than January first of each year.

The fee established by the State Board of Education shall represent the amount per student enrolled in junior colleges in all the districts of the State, which is expended by all the district from district tax funds for the costs of instruction as defined by the California School Accounting Manual for pupils enrolled in grades 13 and 14.

The amount per pupil enrolled shall be derived by dividing the costs of instruction expended from district funds during the preceding year by the quotient of the average daily attendance during the same year in grades 13 and 14 of all districts maintaining junior colleges in the state divided by 1.2. The same fee shall be charged irrespective of the type of class in which the student is enrolled.

The State Board of Education shall also adopt a per unit tuition fee for nonresident students attending junior colleges on less than a full-time basis. Such a fee per unit shall be derived by dividing the fee determined by the State Board of Education for full-time students by 30 (units). The same per unit rate shall be charged of all nonresident students, attending any summer sessions maintained by the junior college.

Each district maintaining a junior college shall report annually to the State Department of Education on the number of nonresident students enrolled in each of the following categories: (1) nonresident students who are residents of foreign countries, (2) nonresident students who are military personnel or the dependents of military personnel, and (3) other nonresident students. The report shall set forth the above information separately for part-time nonresident students and for full-time nonresident students in each of the three categories. The report shall show the total amount of money received for each category and the total received for all nonresident students.

The provisions of this section which require a mandatory fee for non-resident students shall not apply to any college in which during the school year 1962-63 more than twenty-five percent of the students enrolled were residents of another state; except that the provisions of this section shall apply to such colleges beginning with the school year 1969-70 and except that the provisions of this section which require annual reports to be filed with the State Department of Education on the number of non-resident students enrolled shall apply to such colleges in the same manner as to any junior college."

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 49.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

Resolved by the Senate of the State of California, That the Senate Rules Committee assign to an appropriate interim committee for study and investigation the subject of all aspects of an all-year school program under which the public schools would maintain regular school classes on a 12 months basis as a means of meeting the problems of the increasing enrollment of public school pupils and the increasing complexity in the school curricula, and that such committee submit a report thereon, with its recommendations to the Senate at the 1965 Regular Session.

(b) The amounts paid under subdivision (a) of this section by the retirement system to each local district maintaining a local retirement system shall be reflected in the records of the system as having been made from the Retirement Annuity Fund and they shall not be used to reduce the contributions required of members of the local retirement system or to increase the benefits payable by the local retirement system, but shall be applied to reduce the cost of support of the local retirement system to the taxpayers of the local district maintaining the local retirement system.

In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than thirty-eight dollars and forty-six cents ($38.46) nor more than one hundred seven dollars and sixty-nine cents ($107.69). In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30.77) nor more than eighty dollars and seventy-seven cents ($80.77). Between these limits, the average weekly earnings, *for both temporary disability indemnity and permanent disability indemnity*, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the week, month or other period, then the average weekly earnings, mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments [.], *for one year preceding the date of injury unless said year does not reasonably reflect the earning capacity at the time of injury, in which event a longer period may be considered, and further due consideration being given to the hourly rate paid at the time of the injury, and due consideration being given to the reasons for work loss prior to the injury.*

Average earnings would be taken as 95 percent of actual weekly earnings where the employee is regularly and steadily employed, and where such employment can be expected to last for at least a year from the date of injury.

In all other cases average earnings will be taken as 95 percent of the weekly average of all earnings within the year prior to the date of injury, or within such other period as may fairly and reasonably reflect the employee's earning capacity at the time of injury.

All compensation benefits should be paid at the same rate determined in each case within the limits which may be imposed for maximum and minimum payment for temporary and permanent disability indemnity."

Amendment No. 3

803. Fresh peaches shall be mature but not overripe; free from insect injury which has penetrated or damaged the flesh, split pits which are open at the stem end, and from mold, brown rot, and decay, and free from serious damage, due to cuts or skin breaks, growth cracks, bruises, scab, rust, blight, disease, hail, or other causes. Damage to any one peach is not serious unless it causes a waste of 10 percent, by weight, of the individual peach.

Not more than 10 percent, by count, of the peaches in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause; *provided, however, that individual containers in any lot may contain not more than 1½ times the tolerances specified if the percentage of defects in the entire lot averages within the tolerances.*

Packed peaches shall not vary in size between the fruits, in any one container, more than three-eighths of an inch in diameter, when measured through the widest portion of the cross-section.

Peaches of the freestone variety shall not be considered mature unless at the time of picking, the flesh breaks free from the pit. In addition the flesh of peaches of the Elberta variety shall be a yellowish color.

All containers of fresh peaches shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the peaches or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description, when the peaches are packed in the four-basket crate, or the count when wrapped and packed throughout, in straight side containers in uniform layers and rows.

In the case of the four-basket crate the numerical description of the pack in the top layer of the baskets shall be used to designate size. When the count is used to designate the contents of the container a variation of four peaches more or less than the number stated shall be allowed.

[Peaches, when packed, shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9A, 9B, 12B, 22D, 25, 26, 27, 27A, 27B, or 27C. Containers of peaches placed in molded forms shall be marked with the exact number of peaches placed therein, and may be packed in standard container number 31. Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container."]

SEC. 4. Section 806 of the Agricultural Code as proposed to be amended by Senate Bill 1253 of the 1963 Regular Session is amended to read:

806. Plums and fresh prunes shall be mature but not overripe, shall be free from insect injury which has penetrated or damaged the flesh, and from unsealed skin breaks or cuts, mold, brown rot, decay, and free from serious damage due to bruises, growth cracks, sunburn, hail, doubles, insects, internal growth cracks, cavities, gum spots or other causes.

Damage to any one plum or fresh prune is serious if it is caused by:

(a) Bruises which affect the flesh more than three-sixteenths of an inch in depth or more than an aggregate surface area of one-half of an inch in diameter.

(b) Growth cracks over one-half of [a] *an* inch in length or over three-sixteenths of an inch in depth.

(c) Sunburn affecting the flesh.

(d) Hail resulting in one or more depressions over three-sixteenths of an inch in depth or affecting more than an aggregate surface area of one-half of an inch in diameter.

(e) Doubles, when one portion is one-fourth or less in size than the other portion of the plum or fresh prune.

(f) Thrip marks or other similar insect injury when 15 percent or more of the surface of the plum or fresh prune is affected or causing one or more depressions or raised portions (bumps or welts) one-fourth of an inch or more in depth or height.

(g) Internal growth cracks, cavities, or gum spots when they cause the plum to be seriously malformed.

Not more than 10 percent, by count, of the plums or fresh prunes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause *; provided, however, that individual containers in any lot may contain not more than 1½ times the tolerances specified if the percentage of defects in the entire lot averages within the tolerances*.

An additional tolerance of 10 percent, by count, of the plums or fresh prunes in any one container or bulk lot shall be permitted for plums or fresh prunes damaged by hail, providing that:

(1) In the case of plums or fresh prunes having a minimum diameter of $1\frac{7}{8}$ inches or larger, the hail damage on each individual plum or fresh prune, permitted in said additional tolerance, does not exceed a depth which is three-sixteenths of the minimum diameter of the plum or fresh prune, or an aggregate surface area with a diameter equal to one-half of the minimum diameter of the plum or fresh prune; or

(2) In the case of plums or fresh prunes having a minimum diameter of less than $1\frac{7}{8}$ inches, the hail damage on each individual plum or fresh prune, permitted in said additional tolerance, does not exceed a depth of one-quarter of an inch or an aggregate surface area of eleven-sixteenths of an inch in diameter; and

(3) The containers in which they are placed or packed are plainly and conspicuously marked, on the outside end of each container on which appears the other required markings, in letters not less than one-half inch in height, with the words "Hail Marked" or when in bulk lots they are conspicuously placarded "Hail Marked."

Plums and fresh prunes shall not vary in size between the fruits, in any one container, more than one-fourth of an inch in diameter when measured through the widest portion of cross section.

All containers of plums and fresh prunes, shall bear upon them in plain sight and in plain letters on one outside end all of the following information:

(a) The name of the person who authorized the packing of the plums and fresh prunes or the name under which he is engaged in business.

(b) A sufficiently explicit address to permit ready location of such person.

(c) The name of the variety of plums or fresh prunes, if known, and if not known, the words "unknown variety."

(d) A designation indicating the size of the plums or fresh prunes in the container as follows:

(1) When packed in the four basket crate, the description of the arrangement of the pack in the top layer of the baskets.

(2) When wrapped and packed throughout in a straight side container, the count.

(3) When packed without wrappers throughout the container or by the "face and fill" method, in any container other than the four-basket crate and the "round stave" baskets, the "row count" directly followed by the word "row," "rows" or the letter "R" all in like size type, or the numerical description.

(4) When loose in any closed container other than "round stave" baskets, the numerical description.

"Row count" shall mean the number of rows of plums or fresh prunes packed laterally across the end of the container.

"Numerical description" shall mean the numerical arrangement which the plums and fresh prunes would pack in the top layer of a basket if packed in the standard four-basket crate and the designations shall indicate the minimum diameters as follows:

"4 x 4 size" means $1\frac{11}{16}$ inches minimum diameter
"4 x 5 size" means $1\frac{9}{16}$ inches minimum diameter
"5 x 5 size" means $1\frac{7}{16}$ inches minimum diameter
"5 x 6 size" means $1\frac{5}{16}$ inches minimum diameter
"6 x 6 size" means $1\frac{3}{16}$ inches minimum diameter

Other sizes, larger or smaller than the numerical descriptions defined herein shall have proportionate minimum diameter requirements.

The "minimum diameter" shall mean the smallest diameter measured through the center of the plum or fresh prune at a right angle to a straight line drawn from the stem end to the distal end thereof.

When the numerical description is used to designate the contents of a container the plums or fresh prunes therein shall conform to the minimum diameter requirements for the numerical description marked on the container.

When the actual count is used to designate the contents of the container, a variation of four plums or fresh prunes more or less than the number stated shall be allowed.

[Plums and fresh prunes shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9C, 12A, 12B, 14, 15, 16, 17, 18A, 22B, 22D, 23, 24, 25, 26 or 27.

Container number 23 shall be standard for plums and fresh prunes only when such fruits are wrapped and packed throughout the container.

Container number 25 shall be standard for plums and fresh prunes only when used with a three-eighths inch cleat or an eleven-sixteenths inch cleat regardless of any other provision of Section 828.85.

Container number 25 may be used without a cleat or with any cleat other than those provided for in this section and other size containers than those provided in this section may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such containers, in letters not less than one-half inch in height, "irregular container."]

SEC. 5. Sections 3 and 4 of this act shall become operative on January 1, 1964, and only if Senate Bill No. 1253 is enacted by the Legislature at its 1963 Regular Session, and in such case Sections 1 and 2 of this act are repealed, such repeal to be operative January 1, 1964."

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 7, 1963

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning, without my signature,

Senate Bill No. 534, entitled "An act to amend Sections 7009 and 7010 of, and to add Section 7011.5 to, the Welfare and Institutions Code, relating to care of persons in state mental institutions."

This measure would add a new requirement to the law that mentally deficient persons, and their estates shall pay to the Department of Mental Hygiene the full $258 per month cost of such person's care while in a State Mental Hospital.

I am informed by the Department of Finance, at the request of which the bill was introduced, that the objective was to collect the cost of such hospitalization care from federal pensions. At no time was there an intent that an additional personal liability be imposed on the parents of these afflicted children. However, by inadvertence, the bill as amended imposed a new and direct liability upon the parents of such children for the full cost of hospitalization.

It has been the policy of the legislature since 1937 (Stat. 1937, Ch. 369) to share with parents the costs of the care, training, and education of retarded children in State Hospitals. As I have noted, the question of changing this long-standing state policy so as to charge such parents with the full cost of such care, was never presented to the legislature, and was not requested by the Department of Finance.

Accordingly, I am returning the bill without my signature.

Respectfully,

EDMUND G. BROWN, Governor.

Message read, and Senate Bill No. 534 ordered to the unfinished business file.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1192.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 31, 1963

To the Honorable Members of the Senate and Assembly:

Senate Bill No. 1192, "An act to add Article 6.5 (commencing with Section 6061) to Chapter 6 of Division 6 of, and Article 8.1 (commencing with Section 17961) to Chapter 3 of Division 14 of, and to amend Sections 17402, 18452, and 18455 of, and to add Section 17305.9 to, the Education Code, relating to the public school system, and making an appropriation therefor,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

Senate Resolution No. 176

Relating to the creation of a national park in the redwood area

WHEREAS, The Secretary of the Interior, Stewart L. Udall, has announced that he will soon propose a new national park covering a large redwood area in Northern California, which will embrace a whole watershed area; and

WHEREAS, The people of California welcome the nationwide recognition of the scenic splendors of its redwood groves and encourage their dedication to the use and enjoyment of all of the people of the United States; and

WHEREAS, The outstanding manner in which the federal government maintains and operates national parks such as the Yellowstone National Park and Yosemite National Park is a credit to our country and has commanded worldwide admiration and respect; and

WHEREAS, It is appropriate that a national park be established in the redwoods, site of the oldest living things; and

WHEREAS, The only groves of redwoods comprising a whole watershed suitable for the proposed park appear to be located in Humboldt County; and

WHEREAS, More than 20 percent of the land of Humboldt County is now in public ownership and the removal of additional areas from private ownership and the tax rolls would not only preclude further development and growth of the county, and impose an intolerable tax burden on the residents thereof, but also would pose a serious threat to its existing economy; and

WHEREAS, The State of California has in 1962 acquired some 18,000 acres in the Ball Creek Area within the watershed of the south fork of Eel River, of the value of over $1,150,000, in addition the 35,000 acres theretofore within existing state parks in said county, and thereby removed the same from the tax rolls of Humboldt County, and increased the tax burden upon the taxpayer of Humboldt County and of the Southern Humboldt Unified School District; and

WHEREAS, The creation of the proposed national park in lands now included within a state park would not only facilitate the dedication of the most desirable redwood groves for this purpose but would also avoid removing more lands from private ownership; and

WHEREAS, The acquisition and transfer of the present state parks by and to the United States for purposes of said national redwood park would relieve the State of California and the taxpayers thereof of the cost and responsibility for the further administration and operation thereof, without any disadvantages from the recreational standpoint; and

WHEREAS, The proposed national park or certain groves thereof could well be named in honor and memory of Dag Hammarskjold as a fitting memorial, thereby relieving fund-raising organizations including those known as the "Save the Redwoods" league and "Nature's Conservancy" in their efforts to raise money to acquire a redwood grove in Humboldt County in his honor; and

WHEREAS, Pursuant to Section 4433 of the California Public Resources Code, the State pays to each county in which lands have been acquired for state forests an amount equivalent to taxes levied by the county on similar land similarly situated in the county; and

WHEREAS, Section 1504 of the Fish and Game Code also requires that payments be made to counties by the State "in lieu" of taxes when income is derived from real property acquired and operated by the State as wildlife management areas; and

WHEREAS, Other states, including the State of New York, assist their counties in carrying their added burdens incident to the maintenance of tax-free state parks within their boundaries by making payments "in lieu" of taxes; and

WHEREAS, Various federal laws similarly provide for payments to counties including: Payments to counties of 25 percent of funds received from national forests for use in the county or counties in which the forest is located (Sec. 50d, Title 16, United States Code); payments to counties of specified percentage of various grazing fees received under the Taylor Grazing Act (Sec. 315 et seq., Title 43, United States Code); and payment of certain percentage of money received from the sale of public land (Act of June 17, 1902 and other acts) and from the disposal of materials (including timber) on public lands (Sec. 603, Title 30, United States Code); and

WHEREAS, The payment of such payments "in lieu" of taxes is essential to enable the county to meet its obligations and to provide services necessary for its present population and those who would travel through the county to visit the redwoods; now, therefore, be it

Resolved by the Senate of the State of California, That Congress is urged to secure the lands necessary for the proposed national park by taking over only those present state park lands in the Humboldt County comprising the Humboldt Redwood State Parks in the watershed of the south fork of the Eel River; and be it further

Resolved, That provision be made for payments to the County of Humboldt "in lieu" of taxes in order to remove the inequity resulting from present loss of tax base, and assist the county in performing the added county services which will be required incident to the operation of the national park; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each member of Congress from the State of California, Stewart L. Udall, Secretary of the Interior, to James K. Carr, Undersecretary of the Interior and to Orville Freeman, Secretary of Agriculture.

Senate Resolution No. 187

Relating to standards for offsite improvements in subdivisions

WHEREAS, The State Legislature has authorized cities and counties to determine the standards and requirements of offsite improvements in subdivisions; and

WHEREAS, Standards so established vary widely and in some areas no standards have been established; and

WHEREAS, All governmental agencies could benefit from the experience of the other community areas; and

WHEREAS, The construction and real estate industry could benefit from a study of this field; now, therefore, be it

Resolved by the Senate of the State of California, That the Attorney General and the Division of Real Estate is directed to prepare jointly a summary and analysis of such regulations utilized throughout the State, to be presented to an interim committee authorized by the Rules Committee to study this matter; and be it further

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

THE RESOURCES AGENCY OF CALIFORNIA
DEPARTMENT OF WATER RESOURCES
SACRAMENTO, June 5, 1963

Hon. Joseph A. Beek
Secretary of the Senate
State Capitol, Sacramento

DEAR MR. BEEK: Transmitted for the information of the California State Senate is a copy of Bulletin No. 13, "Alameda County Investigation," dated November 1962. This bulletin is the result of a series of co-operative agreements between the Department of Water Resources and its predecessor agencies, and the County of Alameda, commencing in 1948. It summarizes the results of several years of intensive investigation and study of the surface and underground water supplies in the area, including quality, replenishment, and utilization thereof, and methods of solving the water problems involved. The field work was largely completed during the period 1949-51, and a preliminary edition of the bulletin was published in 1955.

The final agreement between the department and the county, in January 1961, provided for the updating and final publication of the bulletin. Several revisions have been made to the preliminary edition to reflect more current data, recent studies, and the present conditions of water supply development.

The principal conclusion set forth in Bulletin No. 13 is that the present basic water problem in Alameda County is perennial overdraft on the ground water resources of the Bay Plain. This overdraft has resulted in a lowering of ground water levels in the principal pumping aquifers in the Bay Plain to depths below sea level, with resultant intrusion of sea water from San Francisco Bay. Supplemental water for this area will be met largely by importation via the South Bay Aqueduct of the State Water Facilities. The bulletin recommends that the maximum amount of water which the Alameda County Water District can arrange to purchase should be obtained from the South Bay Aqueduct.

Sincerely yours,

WILLIAM E. WARNE, Director

Enc.

Letter of transmittal ordered printed in the Journal, and the bulletin filed with the Secretary of the Senate.

Sec. 3. Section 9360.8 is added to said code, to read:

9360.8. If the surviving spouse of a member who is a Member of the Senate or Assembly and who dies after January 1, 1962, but prior to the effective date of this section and who would have become eligible to retire during his term of office and within one year following the date of his death, elects to receive the allowance provided by Section 9360.7, the election shall be made by a writing filed with the board within 90 days after the effective date of this section. If a surviving spouse who makes such an election has received, prior to the effective date of this section, a payment made pursuant to Section 9359.8, the surviving spouse shall return the sum so paid to the fund. Such return shall be made in one lump sum, in installments over a period of time, or by offset against the allowance provided by Section 9360.7, whichever method is approved by the board. The board may designate the maximum period of time for the return of such sum to the fund and the amount of each installment if such return is made in installment or by offset.

If a surviving spouse files an election pursuant to this section, the surviving spouse shall receive in one lump sum the amount which such spouse would have received under Section 9360.7 between the date of the death of the member and the date of filing the election under this section, and thereafter shall receive the allowance provided in Section 9360.7.

Sec. 4. Section 9361.1 of said code is amended to read:

9361.1. Such election, revocation, or change of election may be made at any time before the effective date of retirement or after such effective date and prior to the making of the first payment on account of any retirement allowance.

If at any time before the making of the first payment on account of the member's retirement allowance, his spouse dies, or his marriage is terminated by a final judgment of divorce or annulment, the election of the member shall automatically be void, and the member may make a new election.

A member who has elected an optional settlement providing for the payment of a benefit to his spouse may at any time before the making of the first payment on account of his retirement allowance substitute a different optional settlement.

Such election, revocation, or change of election shall be made by a writing filed with the board.

If a member who is eligible for retirement, *or, with respect to a Member of the Legislature whose death occurs after January 1, 1962, who would have become eligible to retire during his term of office and within one year following the date of his death* has elected one of the optional settlements specified in this article, the surviving spouse of such member shall receive the same benefits as such surviving spouse would have received if the date of his death had also been the date of his retirement and if retirement had preceded death. If in such event benefits are paid to a surviving spouse, no payment shall be made pursuant to Section 9359.8. If a member dies without having elected an optional settlement and there is a surviving spouse, he shall be deemed for the purposes of this paragraph to have elected Optional Settlement No. 2. In either case, the benefits payable to the surviving spouse shall be in the same amount as if the member had elected to receive credit for service rendered prior to the date he became a member of this system and had paid the full amount of the contributions in respect to such service.

Any election filed under this section prior to the effective date of the amendments to this section enacted by the Legislature at the 1957 Regular Session shall continue to be effective in accordance with the terms of this section as it read prior to such amendments and may thereafter be revoked or changed or become void only in accordance with this section as it read prior to such amendment.

SEC. 5. Section 9361.12 is added to said code, to read:

9361.12. If the surviving spouse of a member who is a Member of the Senate or Assembly and who dies after January 1, 1962, but prior to the effective date of this section, does not make an election under Section 9360.8 to receive an allowance under Section 9360.7 and if such surviving spouse is made eligible for a benefit under Section 9361.1 under the amendment to such section enacted at the 1963 Regular Session, and has received prior to the effective date of this section, a payment made pursuant to Section 9359.8, the surviving spouse shall return the sum so paid to the fund. Such return shall be made in one lump sum, in installments over a period of time or by offset against the allowance provided by Section 9361.1 whichever method is approved by the board. The board may designate the maximum period of time for the return of such sum to the fund and the amount of each installment if such return is made in installments or by offset.

If such surviving spouse who so becomes eligible for an allowance under Section 9361.1, such surviving spouse shall receive in one lump sum the amount which such spouse would have received under Section 9361.1 between the date of the death of the member and the time at which such spouse becomes under this section eligible for an allowance under 9361.1, and thereafter shall receive the allowance provided by Section 9361.1.

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the state government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the State. If they are not available for expenditure on July 1, 1963, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the State's business required the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect."

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 11, 1963

To the Senate of the State of California:

I have the honor to inform you that I propose to make the following appointments to offices which are by law to be filled by the Governor subject to Senate confirmation or consent. I hereby nominate these appointees to you and request your confirmation and consent:

LLOYD LAPHAM, resident of 1063 35th Avenue, Sacramento; a graduate of Sacramento High School, Sacramento Junior College and Stanford University; was employed by the *Sacramento Union* in 1938 and was with the *United Press* from 1939-57, serving eight years as bureau chief in Sacramento before being assigned as a correspondent in Washington, D. C.;

State Printer, newly created position, for the term prescribed by law, ending January 15, 1967.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read, and referred to Committee on Rules.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 11, 1963

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning herewith without my signature,

Senate Bill No. 425, entitled "An act to add Section 40834 to the Vehicle Code, relating to civil procedure."

This bill provides that records of conviction, pleas and forfeiture of bail for violation of the Vehicle Code or local ordinances relating to operation of a motor vehicle shall be inadmissible in civil actions, subject to certain stated exceptions.

I see absolutely no reason for this bill. I can conceive of many cases where the action of the defendant in a traffic action would constitute some evidence pertinent

to a proper judgment by a court or jury. For the Legislature to deprive the court or a jury of this evidence seems highly improper to me.

I am, therefore, returning the bill without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read, and Senate Bill No. 425 ordered placed on the unfinished business file.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 11, 1963

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning herewith without my signature,

Senate Bill No. 865, entitled "An act to amend Sections 35721 and 35820, and 35829 of the Government Code, relating to the consolidation of cities."

This bill amends the Municipal Consolidation Act of 1909 and 1913 to provide that if the voters fail to approve the consolidation of two cities that no new petition for such consolidation may be filed within one pear after the result of the election.

The consolidation of city governments, with the approval of the electorate resident in such cities, is in the public interest. Such consolidations eliminate duplicate city offices thereby effecting a savings to the taxpayers. In addition such larger municipalities can effect savings in its purchase of supplies. This measure places a needless roadblock in the path of such consolidations. There is too much government in California today and all proper steps should be taken to eliminate unnecessary government.

Accordingly, I am returning the bill to you without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read, Senate Bill 865 ordered placed on the unfinished business file.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 11, 1963

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning herewith without my signature

Senate Bill No. 190, entitled "An act to amend Section 20012 of, and to repeal Section 20015 of, the Vehicle Code, relating to accident reports."

This measure requires the California Highway Patrol and other law enforcement agencies to disclose the contents of vehicle accident reports, including signed statements of the drivers involved and the witnesses, to any person having a proper interest therein. It also repeals the Vehicle Code section which now provides that upon termination of the criminal proceedings in a vehicle accident case, or upon termination of a six-month period, all of the factual data gathered by the investigating officers, except the drivers' reports, shall be made available upon request to these same persons.

Under present law the reports are for the confidential use of the Department of Motor Vehicles and the Highway Patrol, except that the Patrol must disclose certain information contained in the reports, such as the names and addresses of the persons involved, the witnesses, and the descriptions and license numbers of the vehicles.

I am informed that the purpose of the bill is to make the contents of these reports available for discovery and use in court trials. My belief is that the present confidentiality of the reports, and particularly the signed statements of the drivers and witnesses, should be preserved.

Accordingly, I am returning the bill without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read and Senate Bill No. 190 ordered placed on the unfinished business file.
